

SEMLER : OPTIMO

HGV6000

LOW PROFILE HEAVY DUTY TURNABLES FOR HGV

SEMLER : OPTIMO Turntables and Slide plates are globally renowned for their durability, accuracy and craftsmanship. Our state of the art products which have been developed over the past 40 years, cater for all your requirements in the wheel alignment process.

We are proud to announce, that in 2018 we will be launching our brand-new turntables for Heavy Goods Vehicles. Our brand new HG6000 series has been designed and developed to cater for the needs for the wheel alignment of vehicles with a steering axel load of MAX. 6000 Kg.

The HG6000 turntable is very easy running, and requires a minimum of maintenance. The HG6000's low profile (Only 41 mm) makes it possible to drive directly onto the turntables without having to lift the wheels, enabling non-run-out adapters to measure directly.
